PROFESSIONAL SUMMARY

Proactive B.Tech Information Technology student with hands-on experience design-engineering centralized web applications, management portals, and full-stack technical projects. Skilled in Java, Python, and C, with a solid grasp of database optimization, system design principles, and automated workflows. Driven to leverage clean coding practices, modern UI design, and rigorous system validation in a collaborative software development environment.

EDUCATION

Bachelor of Technology (B.Tech) – Information Technology

VSB Engineering College, Anna University

CGPA: 8.54/10 | Expected Graduation: 2029

Higher Secondary (HSC): 94

Secondary School (SSLC): 93

TECHNICAL SKILLS

Programming Languages: C,C++, Java, Python

Web Technologies: HTML, CSS, JavaScript

Database: MySQL

Tools & Platforms: GitHub, VS Code

Core Subjects: Data Structures, DBMS, Operating Systems, Computer Networks, Object-Oriented Programming

PROJECTS

Student Complaint Management System | *HTML5, CSS3, Vanilla JavaScript*

- **Developed** a centralized institutional grievance portal to streamline complaint reporting, status verification, and administrative resolution workflows.
- **Implemented** dynamic ticket generation, anonymous tracking, real-time status updates, and multi-category administrative filtering modules.
- **Designed** an intuitive dual-interface dashboard featuring distinct, institutional-grade student and administrative views.
- **Optimized** the codebase into a high-performance, single-file deployment tailored for zero-cost hosting on GitHub Pages.

INTERNSHIP

ETS ACADEMY– 30 Days | *Domain: Web Development*

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Assisted in testing and debugging web applications.
- Gained practical experience in frontend development and teamwork.

CERTIFICATIONS

- Infosys Springboard – Python Foundation
- Infosys Springboard – Java Foundation

ACHIEVEMENTS

- Successfully completed multiple academic software development projects.
- Participated in coding and technical skill development programs.
- Actively practiced programming problems to improve coding skills.

SOFT SKILLS

- Problem Solving
- Teamwork
- Communication
- Time Management
- Adaptability
- Leadership
